Experience

Front End Web Developer Intern - IT Department

UIP Inc. | 1Quezon City(Remote)
04/2024 - 11/2024

- Designed and coded projects using Tailwind CSS to create responsive web
- interfaces Collaborated with fellow interns to enhance front-end skills and adaptability.
- Wrote custom HTML and JavaScript for existing websites.
- Developed user-friendly web forms with validation and error handling.
- Proved successful working within tight deadlines and a fast-paced environment.

Thesis: Online Enrollment with Learning Management System

In our thesis project, *Online Enrollment with Learning Management System*, I primarily focused on front-end development, transforming UI designs into responsive, user-friendly code for a seamless user experience. On the back end, I implemented login history functionality and utilized SQL to manage and query data efficiently.

Education

Computer Science

Hobby: Coding, Watching anime and read manga

I enjoy coding and designing websites. I also like tackling coding challenges on platforms like HackerRank or Codewars. When I need a break, I unwind by watching anime or reading manga.
